CUSTOMISATION

THE PROBLEM

Why pay forever for software you don't own?

Most restaurants rely on third-party platforms — paying monthly fees, following their rules, and sharing business data. Foodoos gives you a fully-owned system, customised for your brand.

$

Endless Subscription Costs

Third-party POS tools charge every month. Over years, costs outweigh ownership.

✓

Own It. Run It.

One investment — full ownership. Customised exactly how you need it.

Email & SMS System

AUTOMATED · CUSTOMISABLE · RELIABLE

COMMUNICATION

Messages for Mail, SMS, and Push can all be customised — so your brand voice reaches customers at every touchpoint.

- Order Pending, Processing, Delivered alerts
- Delivery partner assignment messages
- Admin & branch manager new order alerts
- Toggle notifications ON/OFF individually

Kitchen Display System

ZERO PAPER · ZERO CONFUSION

KITCHEN OPERATIONS

Kitchen staff can see item-wise order details, mark items as prepared, and manage order flow — without any paper.

- Live order feed from POS & online
- Item status: Pending → In Progress → Ready
- Supports multiple kitchen stations
- Reduces miscommunication significantly

Smart Inventory

AUTO-DEDUCT · LOW-STOCK ALERTS

STOCK MANAGEMENT

Monitor what's being used, get low-stock alerts, and avoid wastage or menu disruption due to missing ingredients.

- Add & track ingredients / raw materials
- Auto-deduct stock on order completion
- Supplier & purchase record tracking
- Total visibility into operational leakage

GST & Split Billing

FLEXIBLE · BRANDED · COMPLIANT

BILLING & PAYMENTS

Generate compliant GST bills automatically. Bills can be fully customised with your logo, address, and tax settings.

- Auto GST calculation (CGST/SGST/IGST)
- Split payment: Cash + Card + UPI in one bill
- Print or send bill digitally via email/SMS
- Itemised bill with quantity & tax breakup
